Barangay 39m San Perdro, Davao City

EXPERIENCE

Academic Web Development Projects

STI College of Davao

2025 - Present

- Built full-stack web applications using Laravel 12 with Inertia.js and Vue.js 3 for seamless front-end and back-end integration
- Implemented efficient data storage and management with MySQL, optimizing CRUD operations and authentication systems
- Developed dynamic, interactive components to enhance user engagement and responsiveness
- Collaborated with student teams using Git and GitHub for version control and project management, ensuring timely delivery

Prompt AI Engineer

Self-Directed

01/2023 - Present

- Designed and optimized AI prompts to improve natural language processing tasks and chatbot interactions
- Applied AI prompt engineering techniques to enhance software functionality and automate workflows
- Integrated AI-driven solutions with web applications to improve user experience and operational efficiency

PROJECTS

Academic Web Development Projects

01/2025 STI College of Davao

- Built full-stack web applications using Laravel 12 with Inertia.js and Vue.js 3 for seamless front-end and back-end integration.
- Implemented efficient data storage and management with MySQL, optimizing CRUD operations and authentication systems.
- Developed dynamic, interactive components to enhance user engagement and responsiveness.
- Collaborated with student teams using Git and GitHub for version control and project management, ensuring timely delivery.

Prompt AI Engineer (Self-Directed Experience)

01/2023

- Designed and optimized AI prompts to improve natural language processing tasks and chatbot interactions.
- Applied AI prompt engineering techniques to enhance software functionality and automate workflows.
- Integrated AI-driven solutions with web applications to improve user experience and operational efficiency.

SUMMARY

Seeking an on-the-job training opportunity in web or software development where I can apply my knowledge of full-stack development, database management, and AI prompt engineering to contribute to innovative projects. Eager to develop technical expertise, adaptability, and problem-solving skills through hands-on experience. Bachelor of Science in Information Technology

SKILLS

Web Technologies

HTML | CSS | JavaScript | Vue.js

Backend & Database

Laravel | MySQL | Database Design

Development Practices

Responsive Web Design

GitHub Collaboration

Productivity Tools

Google Workspace (Docs, Sheets, Drive)
